

Performance of PV System in Building1

Report generated on: 2020-12-07 08:56:38

Week: From 2020-05-04 to 2020-05-10

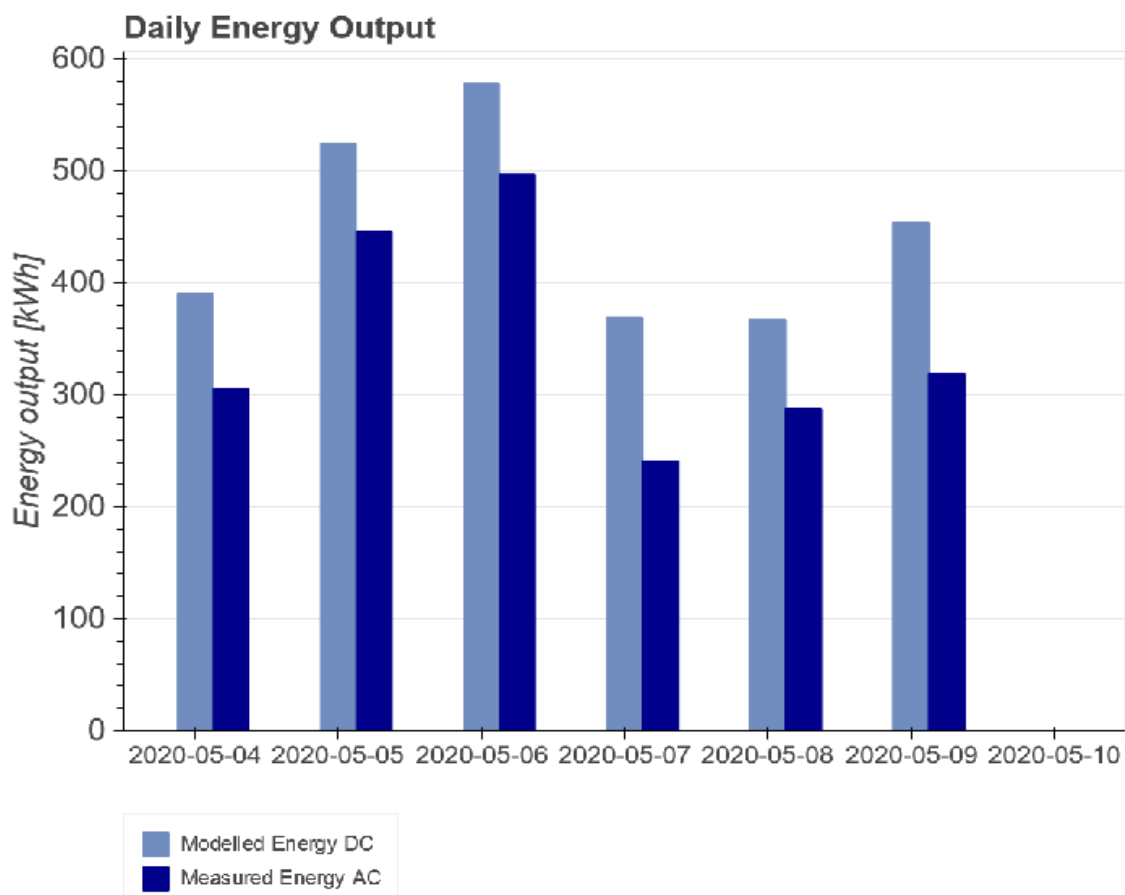

Total calculated nominal energy output from PV array(DC Energy): 2684.2 kWh

Total energy generated from PV system (AC Energy): 2097.0 kWh

Performance ratio of the PV System , calculated as:

Total energy generated from PV system/Total calculated nominal energy output from PV array: PR= 0.78

Total calculated losses of the system : 22.0%

PR for past 3 months measured in weekly basis
