

Performance of PV System in TIC Building

Report generated on: 2020-10-21 13:00:50

Week: From 2020-05-04 to 2020-05-10

Total calculated nominal energy output from PV array(DC Energy): 3183.6 kWh

Total energy generated from PV system (AC Energy): 2542.0 kWh

Performance ratio of the PV System , calculated as:

Total energy generated from PV system/Total calculated nominal energy output from PV array: PR= 0.8

Total calculated losses of the system : 20.0%
